

Hello again, I hope you are well!

This week I propose you to do a “webquest” about Maths, about 2D shapes and 3D shapes.

First of all, I recommend you to watch two videos:

About 2D shapes (polygons):

[https://www.youtube.com/watch?v=laoZhhx\\_I9s](https://www.youtube.com/watch?v=laoZhhx_I9s)

About 3D shapes (geometric solids):

<https://www.youtube.com/watch?v=MwpJafzyCR0>

After watching the videos you can start the activities.

When you finish your project, send me a photo or send me the document you used to do the activities. Or if you did it using a Power Point or any kind of presentation form, send it to me also if you wish. You can record yourself telling your project and send the video to me, too. I would like to see your project.

Remember to send your work in your class email, and remember to visit the English corner in our school website to practice lots of English.

I hope to see you soon!

A big hug,

Cinta
